Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 15 November 2004.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 13 and 15 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's admission of prior art. Figs. 1 and 2, labeled as prior art by Applicant, teach a bone plate assembly, comprising: a bone plate having elongate plate 48 and blade 50 portions connected to one another at a bend 52 and disposed at an angle with respect to one another, said plate portion 48 having a first hole therein and a second hole therein which is disposed intermediate said first hole and said bend; a strut screw 60 disposed through said first hole and extending toward said blade portion 50; a top screw 46a disposed through said second hole, said top screw 46a extending angularly to one side of said strut screw; a third hole disposed intermediate said first and second hole.

Allowable Subject Matter

Claims 14 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-7, 41 and 42 are allowed.

Response to Arguments

Applicants' arguments filed 11/15/2004 have been fully considered but they are not persuasive. The Applicants have argued "Figs. 1 and 2 fail to disclose a top screw extending angularly to one side of the strut screw as called for in independent claim 13." The examiner has maintained the rejection and clarifies as follows. The top screw 46a as depicted in Fig. 1, extends at an angle (relative to strut screw 60) to the inferior side (according to the drawing) of strut screw 60. While it is true that one cannot be sure of the cutting plane used to take the section shown in Fig. 1, screws 46a and 60 intersect each other at what appears to be an angle of about 35°. The Examiner believes this is all that is required by the language "said top screw extending angularly to one side of said strut screw."

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
